

# TACTICAL VOICE LOGGER EXP-M

*A rugged portable solution from Cartel and Eventide*

## Mission-Ready Recording. Anytime, Anywhere.

Experience mission-ready reliability with the **TVL EXP-M**, combining Eventide's proven NexLog recording technology with the unmatched durability of the EXP-M platform. Housed in a rugged, transportable case, this solution delivers secure, data-rich communications recording for tactical and deployable operations, anytime, anywhere.

## The Ultimate Portable Solution for Mission-Critical Recording

Equipped with a rugged touchscreen display and external audio channel interfaces, the TVL EXP-M delivers everything you need to capture sensitive, mission-critical communications in one portable package. Engineered to withstand extreme conditions and harsh environments, it ensures uncompromising reliability and superior recording quality for the most demanding tactical operations. When failure is not an option, trust the Tactical Voice Logger from Cartel Communication Systems—the ultimate solution for mission-critical voice recording challenges.

## Your turn key solution for complicated mission critical challenges.

Purpose-built for tactical operations, rapid response, and incident management, the TVL EXP-M is ready when you are. This portable solution can be deployed in minutes to capture mission-critical audio in virtually any environment. With support for both Analog and VoIP sources and license-based channel scalability, the TVL EXP-M delivers the flexibility and performance you need, wherever the mission takes you.
